By Yosef Mercado

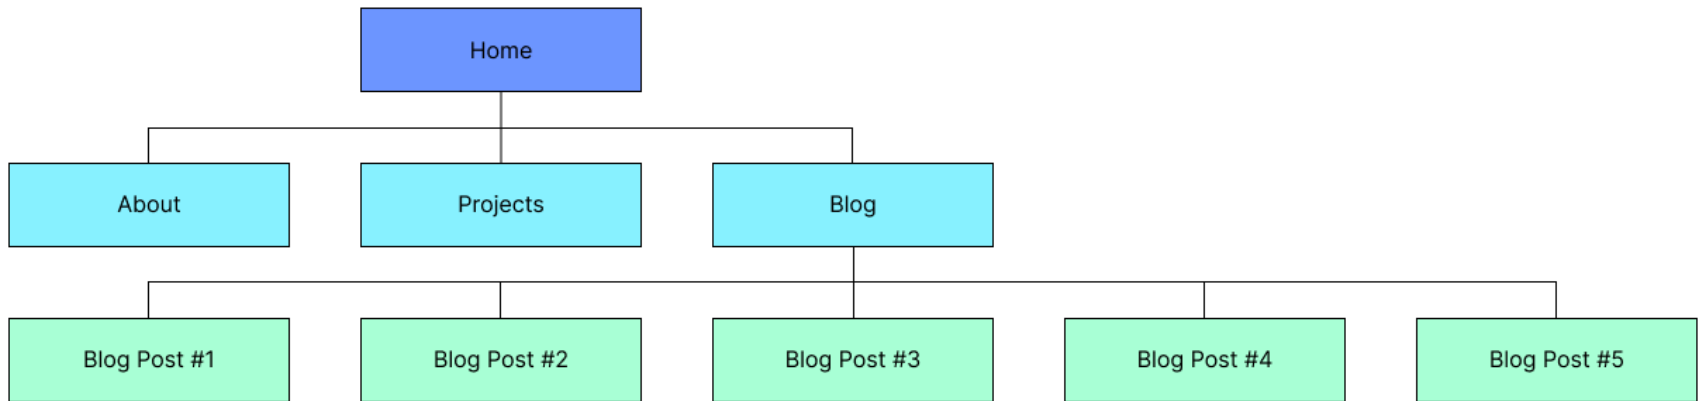

Key Features

- Semantic HTML to cater for accessibility and add meaning.
- Responsive layout.
- Four breakpoints: 480px, 768px, 1024px, and 1200px+.

Design Philosophy

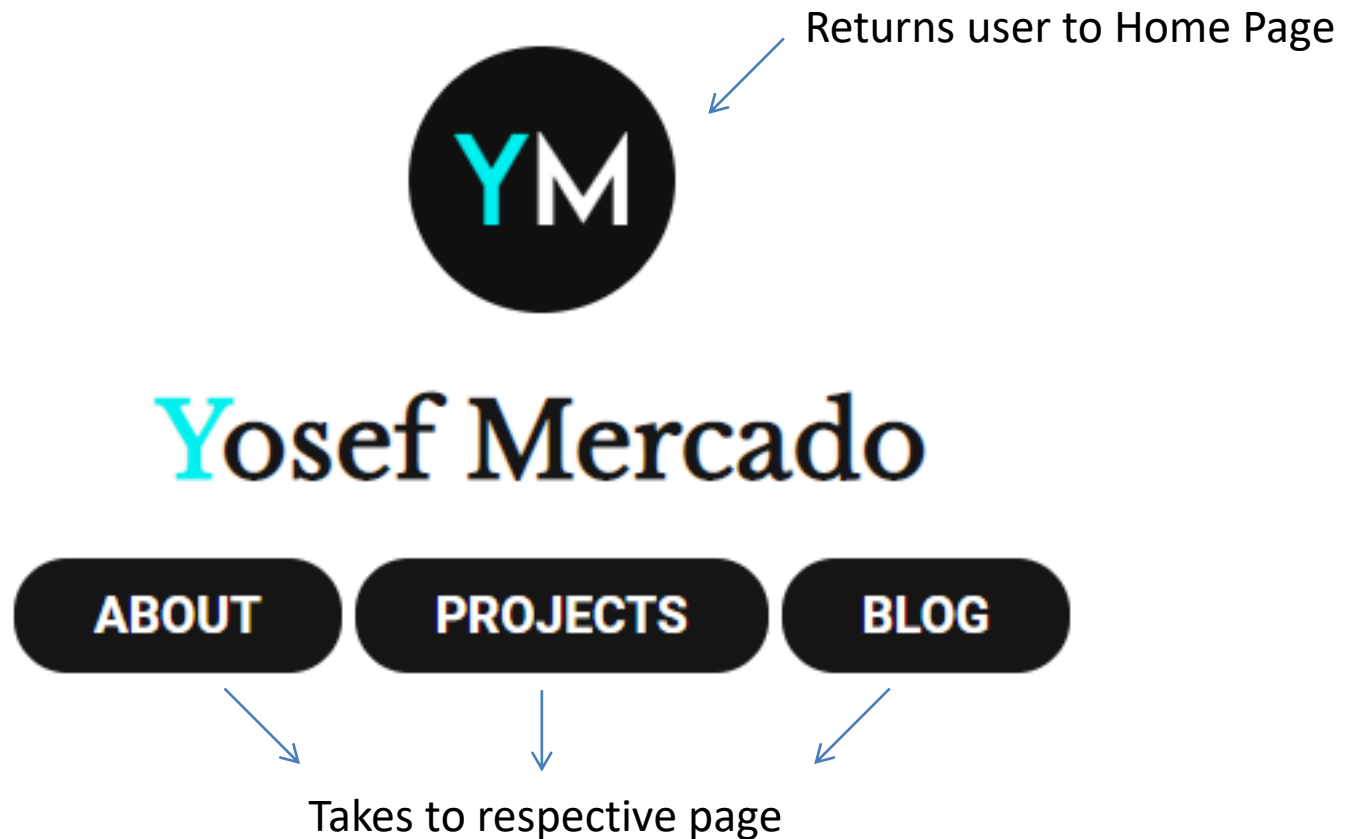

- I am a fan of minimalistic design, so I chose to incorporate this philosophy in my portfolio.
- Two primary colours (black and white), one accent colour (cyan).
- Only simple binary hover effects.
- Readability first.

Sitemap

Header Navigation

- Located in the site <header>.

Socials Footer

- Located in the site <footer>
- External links to GitHub and LinkedIn profiles

target=“_blank” to open a new tab so viewer will still remain on main site

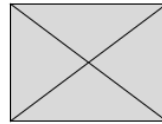

© 2022 Yosef Mercado

Regarding Wireframes

- I will only highlight wireframes with significant styling differences at each breakpoint to avoid redundancies.
- All pages have a reduction in font size at the 480px breakpoint, but may not offer a significant visual difference from the 768px breakpoint.

ABOUT

PROJECTS

BLOG

Who Am I?

My name is Yosef Mercado, 29 years old and currently residing in Perth, WA. Like many people my age, I've grown up in a society that is deeply engrossed in the Internet. As a result, I ended taking up an interest in web development to gain a better understanding of just how this modern marvel works.

Now, here at Coder Academy, I've decided to take the next step in my journey by elevating this cursory interest into a full-fledged career.

Experience With Web Development

My history with web development has been limited light self-education in my spare time. However, my hobby of coding has allowed for me to pick up many of the concepts I've been introduced to with relative ease.

Other Fun Facts

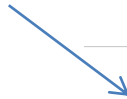

In addition to my hobby of coding, I also enjoy doing digital art and playing games.
